## A NOTE FROM LIBERTY

Liberty Fabrics transports us to a magical winter wonderland of prancing reindeers and glittering stars, with A Woodland Christmas. Charming scenes unfold within an enchanted forest where snowflakes fall around a Christmas cottage, and brightly coloured baubles hidden among the evergreen firs complement traditional designs of holly and berries. Pops of metallic gold and silver twinkle throughout the collection, for an extra sprinkling of festive magic.

A Woodland Christmas has been designed in two colour stories. The first is a traditional Christmas palette of ruby reds, forest greens and warm creams complemented with hints of metallic tones. The second colour story is inspired by the northern lights, painting a picture of frosty blues, jade greens and bright mustards with pops of silver metallic against an inky midnight sky.

We hope this collection inspires you to start crafting your own magical Christmas creations!
